DAIOS COVE

2023
SALES MANUAL

Dear Colleagues and Friends,

I welcome you to a year that sees Daios Cove move in an inspiring direction evolving into a fresh wellbeing destination in the Mediterranean. The launch of the emblematic KEPOS by Goco, our pioneering hub of wellbeing featuring science-backed innovation combined with rejuvenating wellness practices, firmly establishes the Cove as a haven for the worldly traveler who comes back to visit us time and time again. I personally see this achievement as a result of flourishing creativity, singular preparation and the ability to skillfully deliver true vision. The team's unwavering energy and commitment to catapulting the Cove into the top wellbeing destinations in the Med is a reality.

We have plenty more to celebrate as we send off last season and welcome in the next. Our Ducasse Conseil-curated Ocean restaurant continued to receive rave reviews in its third year with wonderful feedback for an outstanding gastronomy offering. Artwork by Saatchi Art brought an unparalleled sense of joy and cause for reflection whilst the stunning space of the Culinary School welcomed guests for private events and masterclasses with Michelin-starred chefs and international visiting wineries. The Clumsies inspired with their energy and an unparalleled cocktail experience at the Cove. BXR London gave an edge to our fitness programmes, with retreats including strengthening sessions, boxing, cardiovascular workouts and yoga at a great level of personal training. Beyond the retreats, BXR visiting trainers provided top-level fitness throughout the season. Furthermore, our collaboration with Technohull has given our guests the opportunity to explore the stunning seascape of Crete with ultimate privacy and style.

Building on this success, we look to the lessons learnt from our most challenging moments during the past three years to dynamically expand our offering of a magical holiday in a truly safe place.

First and foremost, the adherence and utter belief in Our Protocol - a series of enhanced hygiene services and health procedures which offer our guest the crucially important feeling of care within the resort. Our Protocol still forms the axis of our guest experience at the Cove bringing with it a multitude of events and collaborations we are delighted to share with you.

True to the Cove's wellbeing philosophy and sense of rejuvenation, this year sees the full revamp of the Taverna level into two brand new dining venues to excite even the most discerning palates. The uninterrupted views to the Aegean are embellished with sophisticated design in the new Taverna and RHO restaurants with the first delivering contemporary Greek terroir flavour and the latter bringing the concept of stimulating 'raw' textures and taste to our guest's table. The Crystal Box receives a full makeover, maximizing that ethereal sense of being suspended mid-air overlooking the endless blue of the Cove as do the reception area and entrance on the Belvedere level.

However, the most important element of our accomplishments and future endeavours is found on the last page of the manual. Here you will find the names of people that you have been in contact with over the past 13 years - it is the team that has always been and remains a strong, vital link between you and your trusting, loyal customers. We have a trait, deeply rooted in our Greek tradition and being: we are your guests' hosts, on a genuine mission to make them feel safe, welcome and fulfilled. I am infinitely grateful to you, as ever, for supporting our work and carrying our vision for excellence.

THE SPIRIT

DAIOS COVE. NATURALLY.

It's the location which dazzles first. Once seen, it's never forgotten.

Set against the visual drama of a secluded bay, Daios Cove nestles on a hillside on the beautiful northern coast of Crete. From every angle, the views are sublime: the calm turquoise sea of the quiet cove, spectacular verdant slopes, lush terraced gardens, a yellow crescent of private beach and a wide expanse of azure sky.

Then there's the interior and exterior design. Daios Cove is minimalist, modern, chic and sumptuous with a carefully created designer style; and its elegant and sophisticated architecture has been crafted from the natural environment. Sculpted out of the hillside rock, every stone has been traditionally handcarved and reclaimed. As a result, Daios Cove blends beautifully into its picturesque rural surroundings.

Finally, there's the Daios Cove spirit.

Daios cleverly combines five-star luxury and a select ambience with impeccable, friendly, always accessible service. Guests have a choice of luxury villas, rooms and suites (many with their own private sea water pools), seven restaurants and bars, Firefly in room dining, fitness centre, wellness sanctuary and kids club.

Whether relaxing on the exclusive beach, swimming in the pools, sampling fine cuisine, enjoying first class service or simply soaking up the unique atmosphere, Daios Cove makes for the perfect luxury hideaway — and the ultimate holiday.

OUR HERITAGE

DISCOVERING DAIOS

We only opened our doors in 2010, but the Daios Cove story actually began more than 35 years ago.

Back then, a keen yachtsman was sailing off the north coast of Crete when a storm broke. Needing to take refuge from the weather, he pointed his boat towards the first place which offered shelter... and discovered a beautiful cove which acted as a natural haven against the elements.

It was, you might say, a happy accident. He'd found paradise!

Having fallen in love with the location's natural beauty, the man decided to buy some land in the cove for possible future development.

Then, in 2006, architecture firm 3SK Stylianidis — the designers of Daios Luxury Living, a contemporary boutique hotel in Thessaloniki — introduced him to Asterios Daios, founder and CEO of the family-run Daios business.

An agreement was reached, the business acquired the land and, a few months later, on 7th July 2006, the development of Daios Cove began. Our legacy was born.

WEATHER & NATURE

HERE COMES THE SUN

With its typically temperate Mediterranean climate, Crete is lucky to enjoy year-round sunshine, mild weather and high temperatures. This — and its beautiful backdrop — makes it a popular holiday destination.

The seasons can be roughly split into two: a dry and hot summer from May to October, which is perfect for sun-worshippers and mild heat-lovers. During high season — July and August — it's not unusual for temperatures to reach between 30°C and 35°C. Then there is a milder winter, from November to April, which can be rainy at times and cooler at night. Even in November, however, temperatures can climb to 20°C.

Spring-time or early in the summer season is a good time to sightsee and enjoy the diversity of Crete's fauna and flora. From its spectacular gorges to its orange and olive groves; from its green mountain slopes to its beautiful beaches, Crete offers something for everyone.

AROUND THE COVE

ISLAND LIFE

In Crete — the biggest of all the Greek islands and the fifth largest island in the Mediterranean — epic, world-famous history is all around you. Crete's extraordinary landscape became the centre of Minoan civilisation, the people responsible for building the first palaces in Europe.

Crete is a cauldron of creativity, both ancient and modern. Here, ancient frescoes, imposing fortresses and fascinating Greek mythology sit side by side with pretty fishing villages, bustling shopping thoroughfares, cosmopolitan cafés and vibrant nightlife. Crete also has its own distinctive Mantinades poetry and Mantinades-based folk music and is known for its many indigenous dances, including the famous Pentozali.

To help sightseers make the most of their stay, Daios Cove can arrange tailor-made excursions upon request: to see the archaeological site at Knossos Palace or the spectacular island of Spinalonga, for instance — plus sailing or catamaran trips exploring the northern coastline.

ANCIENT SIGHTS

- Kritsa, a unique community of Cretan people with their own traditions
- Island Chrissi, an uninhabited location off southern Crete, known for its white beaches
- Archaeological Museum of Heraklion
- Mochlos, an uninhabited island and ancient Minoan settlement off the north east coast

SURROUNDINGS

Aghios Nikolaos

Built around the tranquil and picturesque Lake Voulismeni, Aghios Nikolaos is a lively shopping and dining destination by day that turns into a buzzing entertainment centre by night. With its cafés, tavernas and restaurants, it's always popular with tourists — yet it still retains its reputation as a quaint fishing town. No trip to Aghios Nikolaos is complete without a visit to the carefully preserved Byzantine chapel of St Nicholas, built during the 7th century AD.

Spinalonga

A tiny island just across from the fishing village of Plaka at the northern tip of the Kolokytha Peninsula. Before becoming the last known leper colony in 1903, Spinalonga served as a fortress built by the Venetians in order to protect the Mirabello Bay. It has recently been catapulted into modern culture thanks to Victoria Hislop's bestselling novel *The Island*.

Knossos

The largest archaeological site on Crete is one of the best preserved in Greece. The Minoan Palace of Knossos was the seat of ancient King Minos and served as the centre of the settlement of the first European civilization, the Minoans, during the Bronze Age. The ancient Greek legends of the Minotaur, the Labyrinth as well as Ikarus and Daedalus are supposed to have come alive in Knossos.

Elounda

Elounda is a small seaside town on the southeast side of Crete just a few kilometres away from Plaka. Our favourites here include the fish tavernas with a fresh catch every day and a swim in the secluded Kolokytha Bay (meaning pumpkin). Elounda was the filming location of the popular BBC series *Who Pays The Ferryman?* from the 1970s.

SEA EXCURSIONS

Daios Cove offers guests the chance to take to the waves and explore the Cretan coastline by sailing boat or catamaran.

It's a trip like no other: by boat, a group of friends or family members can discover delightful beaches and small fishing villages, all the while enjoying the calm of the Aegean Sea and the warmth of the Greek sun. What's more, we prepare all food, supplies and drinks. Half or full day excursions are available.

CUISINE

GASTRONOMY AT THE COVE

Our skilled chefs use only the best quality fresh and local ingredients to create truly memorable dishes in our seven bars and restaurants. Extensive wine lists curated by our in-house sommelier are served accompanied by a stellar service. The upscale Firefly in-room dining service is available 24/7 and ideal for guests who wish to dine in the comfort of their own room, suite or villa. Magic Mondays

Magic Mondays introduce the relaxed, inviting ambience of The Beach House and the serenity of the Cove to our guests. The events draw inspiration from the purification rituals held by the Minoans during the Bronze Age on Crete. Live instrumental tunes bring the natural Cretan landscape to life and accompany your culinary journey at The Beach House. Magic Mondays - an experience not to be missed.

Candlelit dinner

We also serve private candlelit dinners for guests who want to arrange a special meal in their rooms — or under the stars.

CHILDREN

LET'S PLAY

Ask any parent. Enjoying a holiday is so much easier if the kids are having supervised fun in a safe, structured environment. That's why childcare is such an important part of the Daios family holiday experience: mum and dad can escape for a little bit of 'us' time, secure in the knowledge that their children are being looked after by a dedicated team of childcare specialists.

Babies and toddlers are supervised in the Crèche Club by UK childcare experts Worldwide Kids Co, with qualified nursery staff meeting UK standards and regulations. Meanwhile, older kids can check in for fun at the well-equipped Children's Club where

friendly, highly trained multilingual staff will make them feel at home and provide games and activities. For our often 'hard-to-please' teenagers, the Games Room is fully equipped with classic team games, pool billiards, table tennis as well as the latest in video gaming. Plus, our Pangea restaurant opens an hour before official dining time so that children can enjoy our Kids' Early Supper under the supervision of Worldwide Kids Co staff.

The Cove is geared up for families, with a child-friendly beach and babysitting services — so safe and secure fun is child's play.

ENVIRONMENT

IN OUR NATURE

These days, everyone must do their very best to help the planet. And, of course, that includes us.

We've been environmentally aware from the very beginning, however, and were one of the few new hotel properties in Greece to take 'green' details into consideration during the design and construction process. We're glad we did, because we're delighted to say those small details make a big difference.

Part of our aim is to achieve lower energy consumption and avoid wastage of heat and water. That's why we have solar panels to heat around 30 per cent of our hot water; why ultra-energy-efficient LEDs provide our lighting; why we have our own desalination plant; and why we employ energy-saving glazing and insulation materials throughout the resort and offer fresh filtered tap water in all our dining venues.

We also want to protect our beautiful natural surroundings, which is why we have taken such care and attention of the landscaping of our lush gardens. The cove is home to a vast array of local flora; so it was important to ensure that these species were not damaged or destroyed during the resort's design and build process. Indeed, we've taken into consideration the conservation needs of the entire cove in order to show it to its best advantage — and safeguard it for future generations.

At Daios, we're proud to think 'green' by offering the following environmental features:

- 90% of Daios' lighting systems are LEDs, with the lowest possible energy consumption and 10-fold longevity
- A Building Management System optimises heating/cooling energy consumption, as well as energy consumed by the pumping systems
- A desalination plant avoids making use of local water reserves — and protects the environment
- Waste water management ensures water for the Cove's gardens
- Heat recovery of the cooling system in the main building
- Solar panels that contribute around 30% of hot water production
- Low energy consumption Daikin VRV 3 cooling system for accommodation
- Energy-saving insulation materials in all buildings
- Energy-saving glazing in all rooms
- Recycling glass, cartons, plastic and batteries
- Freshly filtered tap water in all dining venues

YOUR STAY

FACILITIES

AT YOUR SERVICE

At Daios Cove, we want our guests to be as comfortable and as relaxed as possible. That's why our luxury facilities are second-to-none — and designed to pamper.

Some of these facilities are immediately obvious: our beautiful, private, sandy beach, for example, used exclusively by Daios Cove guests; our infinity pool with a spectacular view of the Aegean; our three funiculars, plus complimentary in-resort club car service and shopping facilities.

Others are less apparent, but still important because we believe it's the little touches that make big differences. For instance, it might sound simple, but our complimentary sunbeds are fitted with mattresses for that extra bit of comfort; and we use filtered sea water in all of our private pools.

Plus, of course, if you have particular needs or requirements, our Guest Services team is at your disposal and always happy to help.
