# SNORKELING TRIPS

Snorkeling is a fun and relaxing way to view the colorful and fascinating world just beneath the ocean's surface. snorkelers use a clear plastic mask and a short tube to breathe while floating face-down on the surface of the water. This way you can observe coral and marine life without scaring them away the fish with your movements and without having to come up for air every minute. Just floating and being immersed within the underwater scenery is enough to escape the hurdles we encountered in everyday life.
