BEACH & TIDES

Enjoy the beach and the ocean

Coral reefs protect the east coast of Zanzibar and create a long lagoon with 50 shades of turquoise.

The white-sand beaches are broad and flat. The moon's pull creates tidal differences of up to 4 metres twice a day, constantly changing stunning ocean views, high tide is ideal for swimming, while at low tide the shallow waters beg to be explored! The extended jetty allows you to enjoy the ocean, even at some of the lower tides . [View Zanzibar tide](#)
