

Diving

Ocean Dimensions is the dive centre at Brennia Kottefaru located in the still unspoiled Raa Atoll. The dive team has 20 years of experience in the Maldives and would like to show you the beauty of this Atoll and take you diving with mantas, grey reef sharks, nurse sharks, napoleon wrasses, tunas, sting rays, eagle rays, turtles, honeycomb morays, octopus, mantis shrimp and many more. We are lucky to dive with mantas all year around. From May to October our manta spots are directly in front of our doorstep.

- Daily boat trips twice a day, Monday to Sunday.
- Specially fitted boats for divers.
- Dive Centre over water with a direct docking area for our dive boats.
- For additional safety and fun we dive in small groups.
- The boat trips to one of our 30 dive sites take 5 to 60 minutes.
- Nitrox diving at no additional charge.
- The complete administration, from check-in to courses is done paperless – one of our contributions to protect the environment.
- We have a large variety of dive sites and can offer: relaxed diving, drift, deep and shallow diving, overhangs, blue holes, canyons and diving with mantas all year around.
- 29 degrees water temperature.

Diving Education

- All courses are conducted with the most up to date teaching aids adhering to the PADI standards.
- Open Water, Advanced Open Water Diver and NITROX courses start every week.
- The courses are conducted in English, German, French, Italian and Spanish (teaching materials are available in each language).
- Other courses are possible on request (min. 4 weeks before arrival).
